Dear Parent/Carer,

### YEAR 10 MOCK EXAMS JUNE 2022

Starting Friday 17<sup>th</sup> of June 2022, Year 10 students will be sitting a programme of end of Year 10 mock exams in a majority of their subjects. The primary purpose of these exams is an opportunity for the teachers to see what your child currently can and cannot do. The class teacher will then support your child with plugging the gaps in their knowledge in preparation for year 11.

In order to prepare for these exams, students have already begun study skills sessions in form time, focussing on the following key skills.

- **Making revision timetables** - ensuring students are aware of when they can revise at home, allowing the process to start with plenty of time before the mocks
- **Making flashcards** - bitesize information cards breaking the exam content down
- **Using flashcards** - ensuring that content is regularly covered
- **Dual coding**- using images on their revision resources, meaning it is retained twice (through words and images)

Please find time to go over these with your son/ daughter, helping them to organise their time at home (to create the revision timetable), and testing them on the resources they make in advance of the exams (flashcards, dual coded mind maps etc);
