

Headteacher: Dr. J Bartlett – NPQH, PGCE, D.Phil, M.Chem **Specialisms:** Mathematics

JSA/RAB

18th May 2023

Dear Parent / Carer,

YEAR 11 SCIENCE SATURDAY SCHOOL

The year 11 students have completed one out of the six science papers. The students have been working really hard and now it is the final push. Typically, students nationally do not do as well in paper 1 chemistry and it is important the students keep going to beat the national curve so they can achieve excellent results. This revision session will solely focus on chemistry paper 1 to ensure the students achieve the best possible overall GCSE grade in science. The date of the chemistry exam is Monday 22nd May 2023.

- **Saturday School – 20th May 2023**

In order to support your child with achieving the best possible grade it is critical that you encourage your child to attend Saturday school on 20th May from 10 am to 1 pm.

Students may wear their own clothes when attending this revision session and they will be provided with a drink and a small snack.

It will be extremely beneficial for your child to attend this Saturday school revision session. Their science teacher will be on site to support your child.

If you have any questions or queries or would like some additional information about the above, please do not hesitate to contact me via jatinderpal.sandhu@she.e-act.org.uk

Yours faithfully

Mr J Sandhu
Head of Science
