

## <u>D&T Final countdown – GCSE examination 2024</u>

| Faculty: | Date of exam               | Exam title              | Duration | Exam board |
|----------|----------------------------|-------------------------|----------|------------|
| D&T      | 18 <sup>th</sup> June 2024 | D&T in the 21st century | 2 hours  | Eduqas     |

| Date                                     | Task to be revised   | GCSE Pod link                               |
|--|--|---|
| 18 <sup>th</sup> March                   | You need to create a mind map of metals. Include ferrous and non-ferrous. Which are alloys, what are their properties and what are they used in.   |   |
| а.                                       | Method of revision = Mind map.   |   |
| 25 <sup>th</sup> March<br>Easter Holiday | You need to complete the tables on of paper and boards. Include the meaning of GSM, Microns, standard sizes and uses.  | 国際会議   日本   日本   日本   日本   日本   日本   日本   日 |
| act a "I                                 | Method of revision = Table and questions.  |   |
| 1 <sup>st</sup> April<br>Easter Holiday  | You need to complete the mind maps on natural woods and manufactured boards.  Method of revision = Mind map and questions  |   |
| 8 <sup>th</sup> April                    | You need to complete the questions and tables on natural and synthetic fibres.  Method of revision = Tables and questions.   |   |
| 15 <sup>th</sup> April                   | You need to complete the mind maps and tables on thermosetting and thermoforming polymers.  Method of revision = Tables and mind maps.  You need to complete the glossary of key words to explain the physical |   |
|  | properties of materials. You will need to research beyond the content of the video for some.  Method of revision = Glossary of key words.  |   |
| 22 <sup>nd</sup> April                   | You need to complete the table on smart materials and technical textiles.  Method of revision = Table  |   |
|  |  |   |
| 29 <sup>th</sup> April                   | You need to complete a poster on 'Factors that effect your choice of plastic'. In-depth knowledge.  Method of revision = Poster  |   |
| 6 <sup>th</sup> May                      | You need to create notes on polymerisation and answer questions on the sources and origins of plastics. In-depth knowledge.  |   |
|  | Method of revision = Notes and questions.  | ESTEROM TO                                  |

| 13 <sup>th</sup> May                    | You need to complete revision notes on 'working with plastics'. Indepth knowledge.  | 10000000000000000000000000000000000000  |
|---|---|---|
|   | Method of revision = Notes, mind map and questions.   |   |
| 20 <sup>th</sup> May                    | You need to complete revision notes on shaping and joining plastics.  In-depth knowledge.  Method of revision = Notes   |   |
| 27 <sup>th</sup> May                    | You need to create a poster on sustainability. Reference finite and non-  |   |
| Half Term                               | finite resources, fossil fuels, recycling, deforestation, life cycle assessment, 'our' impact on the environment, waste disposal, pollution and global warming. |   |
|   | Method of revision = Poster – A4 (with a diagram)   |   |
| 3 <sup>rd</sup> June                    | You need to create a mind map on CAD/CAM, FMS and JIT.  |   |
|   | Method of revision = Mind map   |   |
| 10 <sup>th</sup> June                   | You need to fill in the notes on mechanical systems.  Method of revision = Notes.   |   |
|   |   |   |
| 17 <sup>th</sup> June                   | You need to complete the table on renewable energy sources,   | 17.70<br>27.70<br>27.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70<br>17.70 |

| Exam – Tuesday 18 <sup>th</sup><br>June | You need to; - Get a good night's sleep Eat a healthy breakfast.  |   |
|   | <ul> <li>Yes, it is 2 hours long. No, I cannot change this.</li> <li>Think happy thoughts "You've got this!"</li> </ul>   |   |

# List of properties

- 1. Durable (long lasting)
- 2. Strong, tough, hard
- 3. Crease resistant
- 4. Lightweight
- 5. Heat conductor/insulator, Electrical conductor/insulator
- 6. Elastic, malleable, flexible
- 7. Corrosion resistant
- 8. Strength to weight ratio
- 9. Shock resistant/impact resistant
- 10. Water resistant/waterproof/absorbent

You need to create a mind map of metals. Include ferrous and non-ferrous. Which are alloys, what are their properties and what are they used in.

#### What does Ferrous mean?

Draw the periodic table symbol.

Give the properties.

Name that pro's and con's

|      | <br> | <br> |      |      |      |  |
|------|------|------|------|------|------|--|
| <br> | <br> | <br> |      | <br> | <br> |  |
| <br> | <br> | <br> | <br> |      | <br> |  |
|      |      |      |      |      |      |  |

Ferrous metals

Non - ferrous metals

You need to complete the tables on of paper and boards. Include the meaning of GSM, standard sizes and uses.

| GSM                                   |            |      |  |  |  |
|---------------------------------------|------------|------|--|--|--|
| Paper is made from                    |            |      |  |  |  |
| Paper comes in                        |            |      |  |  |  |
|                                       |            |      |  |  |  |

| (PF)                   |            |      |

### **Material properties**

You need to complete the glossary of key words to explain the physical properties of materials. You will need to research beyond the content of the video for some.

| Property                           | Meaning |
|------------------------------------|---------|
| Absorbency                         |         |
|                                    |         |
| Fusibility                         |         |
| Electrical conductivity/insulator  |         |
| Licetifical conductivity/insulator |         |
| Thermal conductivity/isolator      |         |
|                                    |         |
| Moisture resistance                |         |
| Chananath                          |         |
| Strength                           |         |
| Hardness                           |         |
|                                    |         |
| Toughness                          |         |
|                                    |         |
| Density                            |         |
| Malleability                       |         |
| Maneability                        |         |
| Elasticity                         |         |
| ·                                  |         |
| Ductility                          |         |
|                                    |         |
| Impact resistance                  |         |
| Strength to weight ratio           |         |
| Strength to weight ratio           |         |
| Crease resistance (textiles only)  |         |
|                                    |         |
| Water proof/resistant              |         |
| Constitution                       |         |
| Corrosion resistant                |         |
| Durable                            |         |
|                                    |         |
| Flexible                           |         |
|                                    |         |

| Name                           | Properties | Use |
|--------------------------------|------------|-----|
| Thermochromic pigment          |            |     |
|                                |            |     |
|                                |            |     |

|                                |            |     |

| Factors that affect your<br>choice of plastic | Functionality             | Aesthetics            |
|---|---------------------------|-----------------------|
| Cost  | Availability (stock form) | Environmental factors |
| Social factors                                | Cultural factors          | Ethical factors       |

<sup>\*</sup>Note that these are the same criteria that your would conduct when completing a product analysis or a design specification.

You need to create notes on polymerisation and answer questions on the sources and origins of plastics. In-depth knowledge.

#### How polymers are made (polymerisation) – complete the boxes

| Crude oil (fossil fuel). Deep in earths crust. Extracted through drilling.  Fractional disti | Cracking Polymer (plastic)   |
|--|--|
| Life cycle assessment  1)  | A life cycle assessment is carried out to assess the  Negative effects of plastic on the environment |
| Which plastic is commonly recyclable?  |  |
| Polymers made from plant sources are know  | wn as  |
| PLA stands for   | It's properties are it is  |

**Working with plastics** 

Biopolymers ae cheap/expensive.

What material to choose on a job?

| Name two properties to explain why thermoforming plastics are used in injection moulding? |
|---|
| Which specific plastics are used in injection moulding?                                   |
| Which category of plastic is used on kettles and hairdryer?                               |
| Name two common thermoset polymers?   |
| Which properties make them ideal for working with electrical products?                    |

Notes on additives (grade 6 +)

Shaping and joining plastic.
